PROTEO International Conference scholarship for graduate students and postdoctoral fellows

Evaluation grid

Grid for the evaluation of candidates	1	2	3	4	5	6	7	8	9	10	11	12
Interest demonstrated by the cover letter												
Presentation and seriousness of the application												1
Logical progression of the argumentation												1
Quality of the language (spelling, grammar)	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10
Relevance of the convention to the candidate's journey (appropriate												
time for a convention, positive impact on the candidate)												1
Prestige, theme and international dimension of the convention	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10
Quality of the work presented and of the summary proposed to the												1
congress and influence of PROTEO												1
Clarity of the project												
Interest of the project												1
Innovative character and originality of the work presented												1
Type of presentation (an oral presentation is preferred)	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10
Excellence of the application and quality of the scientific CV												
Scientific production (publications, conferences)												
Distinctions (training scholarships, merit-based scholarships,												
presentation prizes)												1
Student dynamism and involvement	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10
Leverage of this award for other awards												
This is not a bonus for mediocrity but an aide to excellent candidates												
who, for reasons beyond their control, do not have much chance of												
obtaining other scholarships, for example:												
difficult curriculum												
 personal circumstances, age or nationality that limit 												
eligibility for other scholarship programs												
level of study	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10	/10
